Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any entered patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.

**DETAILED ACTION**

***Information Disclosure Statement***

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references (specifically, the document mentioned at the end of line 19 on page 2) have been cited by the examiner on form PTO-892, they have not been considered.

The information disclosure statement filed November 14, 2001 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein (document JP 60-111568) has not been considered.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the last three lines of claims 1-6, the term "of the Nyquist frequency" is unclear. A possible replacement is --at the Nyquist frequency--. In order to advance prosecution,

for this action the term "of the Nyquist frequency" in claims 1-6 is understood to mean -- at the Nyquist frequency--.

***Allowable Subject Matter***

Claims 1-6, as far as understood, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter: The inclusion in claims 1 and 3 of limitations that the focusing optical system of a radiation readout apparatus has an MTF which is 50% or less at a Nyquist frequency of the apparatus is considered a nonobvious modification of prior art such as Arakawa (US Patent No. 5,901,391).

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Arakawa, US Patent No. 5,801,391, describes a radiation image readout apparatus wherein an MTF is dependent on pixel size (col. 3, lines 58-62).
